NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 30TH JUNE 2012**1. Corporate Information**

Heera Ispat Ltd. is a public limited Company incorporated in India under the provisions of The Companies Act, 1956. The Company is engaged in business of manufacturing and trading of steels and alloys. The Company caters to domestic market and operates all over India.

2. Basis of preparation

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these financial statements to comply in all material respects with the accounting standards notified under the *Companies (Accounting Standards) Rules, 2006*, (as amended) and the relevant provisions of the Companies Act, 1956. The financial statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year, except for the change in accounting policy explained below:

2.1 Summary of significant accounting polices**a. Change in accounting policy**

Presentation and disclosure of financial statements.

Till the year ended 30th June, 2011 the company was using pre-revised schedule VI of the Companies Act, 1956 for the preparation and presentation of its financial statements. During the year ended 30th June, 2012, the revised schedule VI notified under the Companies Act, 1956, has become applicable to the company. The company has reclassified previous years figures to conform to this year's classification.

b. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

c. Tangible fixed assets

Fixed assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the assets to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. All other expenses on existing fixed assets, including day to day repaired maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Gains or losses arising from de-recognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit & loss when the asset is de recognized.

d. Depreciation on Tangible Fixed Asset

Depreciation on fixed asset is calculated on Written down Value method using the rates prescribed under the Schedule XIV to The Companies Act, 1956.

f. Earnings per share.

Basic earnings per share are computed by dividing the net profit after tax by the weighted average number of equity shares outstanding during the period.

g. Provisions and Contingent liabilities

A provision is recognized when the Company has a present obligation as a result of past event. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimate.

Where no reliable estimate can be made, a disclosure is made as a contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

h. Cash & Cash equivalents

Cash and cash equivalents comprise cash and cash on deposit with banks and corporations. The company considers all highly liquid investments with a remaining maturity at the date of purchase of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.
